Program Date: **05-06-2023**

Budgeted Amount: **Rs 800/-**

Total expenditure: **Rs 800/-**

Balance: **Rs 0/-**

Brief Report

1.Title: Environment Day Celebration: Planting a Tree at College Campus

Date: 05 Jun 2023

Introduction: On 05 Jun 2023, the students and faculty of Henry Baker College came together to celebrate World Environment Day by planting a tree on campus. This initiative aimed to raise awareness about environmental conservation and promote sustainable practices among the college community.

Event Details: The Environment Day celebration commenced with a brief gathering at the designated location on campus. Students, faculty members, and administrative staff gathered around as the college principal Dr. Gireesh Kumar G.S delivered a speech highlighting the significance of environmental protection in today's world. The speech emphasized the importance of individual and collective efforts in preserving the planet for future generations.

Following the speech, participants actively engaged in the tree planting activity. A chosen sapling, native to the region and suitable for the campus environment, was carefully planted with the assistance of the college's gardening staff. The act of planting the tree symbolized the college's commitment to environmental stewardship and served as a tangible reminder of the importance of nurturing nature.

Throughout the event, students and staff members actively participated in discussions about sustainability practices, including recycling, reducing energy consumption, and minimizing waste generation. Interactive sessions were organized to brainstorm ideas for future eco-friendly initiatives within the college campus.

The Environment Day celebration also featured educational displays and posters showcasing information about climate change, biodiversity conservation, and the role of trees in mitigating environmental degradation. Students had the opportunity to learn about various environmental issues and explore ways to contribute to positive change.

Conclusion: The Environment Day celebration at Henry Baker College was a resounding success, fostering a sense of environmental consciousness and responsibility among students, faculty, and staff. By planting a tree and engaging in discussions about environmental sustainability, the college community reaffirmed its commitment to protecting the planet and preserving its natural resources for generations to come. This event serves as a testament to the college's dedication to promoting environmental awareness and fostering a culture of eco-friendly practices within its campus and beyond.
