Brief Report

The program aimed at enhancing students' educational experiences while beautifying the school campus. Through this initiative, students actively participated in planting flowering plants in designated garden beds, as well as in pots and various areas throughout the campus, enriching their understanding of plant life cycles and ecosystems. Additionally, the program emphasized daily plant care routines, including watering and fertilizing, to ensure the optimal health and vitality of the plants. By engaging students in hands-on gardening activities and fostering a sense of responsibility for plant care, the initiative not only contributed to the aesthetic appeal of the school but also cultivated valuable skills and knowledge in environmental stewardship.
