### **Brief Report**

To create a future where the things we love are protected from climate change, we need to see action today. The solutions to the climate crisis are at our fingertips, we just need to get on with it. It was in this context that the BMC members of Christian College, Chengannur came up with the concept of Love the Planet. So they couldn't think of anyone more deserving of their love than their very own Planet Earth. To spread this message, the club members prepared some digital posters and circulated the same in various social media platforms.
