

Monthly Programme Report
Kuriakose Gregorios College BMC

Institution Name: **Kuriakose Gregorios College**

BMC Code: **KTM/2022/35**

Programme Title: **Preliminary biodiversity investigation at a local wetland - Aruvikuzhy Waterfalls**

Program Category: **Field Visit/Nature Camp**

Activity Type: **Action Program**

No. of participants: **14**

Planned Date: **28-10-2023**

Renewed date: **-**

Program Date: **28-10-2023**

Budgeted Amount: **Rs 1000/-**

Total expenditure: **Rs 1000/-**

Balance: **Rs 0/-**

Brief Report

The field trip to Aruvikkuzhy waterfalls was an illuminating experience, highlighting the paramount significance of sustainable tourism and environmental conservation. The field study of the waterfall ecosystem has provided valuable insights into the intricate web of life and ecological processes that thrive in and around these natural wonders. Through our observations and research, we've gained a deeper understanding of the biodiversity that shape these ecosystems. Phylum Arthropods are the most abundant group. About 20 insect families and few Arachnid families were found. Out of which Salicidae, Formicidae and Dragonflies were found more in number. Many fungal species were also found there.

Expenditure Statement

Item	Expenditure	Remarks
Transport- College Bus Expense	Rs 1000	
Budgeted Amount		Rs 1000
Total Expenditure		Rs 1000
Balance Amount		Rs 0
